# The Eclectic

## Nature Of Stone

The strategic perspective of CYAN is enriched with a new technology, with a horizon of beauty, creativity and functionality, which puts the values of ceramics at the center.

CYAN'S collections embody the combination of beauty, design and nature, in a perfect equilibrium achieved through what has always been a deliberate and thought-out approach. Our constant commitment, supported by continuous technological research, has enabled us to improve and to develop a "sustainable" porcelain stoneware, made with natural materials and with the partial use of recycled materials.

# M U L T I P L E S A N S A T I O N

A STORY THAT ADDS NEW CHAPTERS EVERY TIME. Hidden away in the varied, multi-faceted appeal of marble are stories from the past and present, pulsating with life. A fine line separates the artificial from the natural, when light spreads through and leaves its mark on surfaces strongly bonded with the living styles of the future.

The inspiration comes from Italian Living origin: the distinctive Marble and the deep Fusion Effects, both crossed through by white veins and with a small-medium grain.

The other colors start out from black, gradually shifting through dark and light grey to white. The subtle texture and veins, tempered with a very light white, reminiscent of the night sky in black, give the product a smooth, extremely sophisticated appearance.
